

# MEPNN Supplier Scouting Opportunity Synopsis

Item Information	
Scouting Number	2023-127
Item to be Scouted	Coir erosion control fabric
Days to be scouted	30
Description	<p>We provide federal financial assistance for habitat restoration projects--some of which are subject to BABA. These projects commonly use natural erosion control materials, and we would like to see if we can find US sources. The materials are commonly sourced from Asian countries. This opportunity is for market research</p> <p>Some requirements are (see attached image):</p> <p>1) The material should be 100% biodegradable (e.g., does not include plastic netting)</p> <p>2) The material should be BABA compliant (e.g., 55% of the components are made in USA)?</p>
State item to be used in	California

Contact Information	
Email	
First Name	
Last Name	
Department / Company / MEP Center	
Bureau / Division / MEP Center Regional Office	

Supplier Information	
Type of supplier being sought	Manufacturer
Reason	2nd Supplier

Summary of technical specifications and performance requirements	
Describe the manufacturing processes (elaborate to provide as much detail as possible)	unknown
Provide dimensions / size / tolerances / performance specifications for the item	unknown
List required materials needed to make the product, including materials of product components	coconut matting (commonly)
Are there applicable certification requirements?	No
Are there applicable regulations?	No
Additional Technical Comments	This opportunity is for market research

## Volume and Pricing

Estimated potential business volume	variable
Estimated target price / unit cost information (if unavailable explain)	variable

## Delivery Requirements

When is it needed by?	flexible
Describe packaging requirements	flexible
Where will this item be shipped?	california; mendocino county

## Additional Comments

Is there other information you would like to include?	Office of Habitat Conservation--Restoration Center
